PREVIOUSLY ON DEATH RAYS

It's been twelve months since the death ray attack on Stiltsville, Florida. The only survivors, Arturo Cardenas and Tia Yao, have recently married. With the settlement money Arty received from Dirty Sanchez's now defunct Jai Alai gambling business, the newlyweds decide to move as far away as possible from the horrors they endured while preventing the Deep Ones from resurrecting the star god Cthulhu and bringing about the total annihilation of earth.

Not wanting to leave the ocean, but still wanting to be away from Florida, they settle in Ko Olina, Hawaii, a posh resort town on the southwest coast of Oahu. Sandwiched between luxury hotels, the two start a taco wagon-slash-bed and breakfast right on the beach.

Despite opposition from corporate hotel big wigs the two are living a quiet life on the beach, until one day the lovers start seeing tell tale signs of their past creeping up on them. Shadowed figures with tentacles, octo cats known as zoogs, and the ill looks they get from the resort manta ray pets.

Meanwhile from unsealed chasms on the ocean floor the cephalopod man known as Kish Eibon resurrects himself to former glories, called upon by the alluring throb of the ill gotten artifact. From the stars, star goddess Hydra spawns a new child known as Eagle Ray, to go to earth and kill anyone who stands in her way of retrieving the artifact that will release her from her prison.

Then one day as they stroll across the beach, a little jade stone artifact they thought they destroyed, washes up on shore.

Can the Cardenas save not only their new home and business, but the world as well?

Who will win between the star demons as they fight for the trapezohedron?

Can the artifact be destroyed?

Who is the mysterious Miskatonic professor who knows so much about the artifact? Can he be trusted?
