Professionally converted for accurate flowing-text e-book format reproduction, Legal Support to the Operational Army is the Army's manual for operational legal doctrine. This manual provides authoritative doctrine and practical guidance for commanders, judge advocates, legal administrators, and paralegal Soldiers across the spectrum of conflict. It outlines how The Judge Advocate General's Corps (JAGC) will be organized in accordance with the Army's modular force design. It also discusses the delivery of legal support to the modular force. This manual establishes a foundation for Judge Advocate General's Corps (JAGC) personnel to build upon to provide principled counsel and mission focused legal support to the operational Army. It establishes an understanding of the roles and responsibilities that JAGC personnel have both between different legal offices at different levels of command and between the legal section and the staff of the supported command; all in support of the commander and the Army.

The purpose of this manual is to assist commanders and judge advocates in assigning roles and responsibilities for legal support in the unique areas of operations encountered in this era of persistent conflict. This manual is not intended to provide detailed guidance on every situation that judge advocates will encounter in a deployed environment whether overseas or within the United States. That is not the goal. Just as Army leaders and forces must respond to a broad range of threats under conditions of uncertainty by exercising operational adaptability to accomplish missions, so too must judge advocates.
