This combination CD-ROM and workbook of technology activities for pre-service teachers is designed for the Educational Technology or Technology for Teachers course found in all teacher preparation programs. The CD and portfolio-development workbook focus on what students learn and how they learn it rather than on what teachers say and do. The CD models innovative instructional techniques for classroom use. In the process students create a portfolio of technology learning activities which they can use when seeking their first teaching assignment. Exercises range from the conventional (multiple-choice quizzes and term identification) to the innovative (online journals and interactive Web exercises).

#### **Albert Christensen:**

Information is provisions for those to get better life, information currently can be gotten by anyone with everywhere. The information can be a knowledge or any news even an issue. What people must consider when those information which is within the former life are challenging to find than now's taking seriously which one works to believe or which one the actual resource are convinced. If you find the unstable resource then you buy it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Technology for Teachers: Mastering New Media and Portfolio Development with Free Student CD-ROM as your daily resource information.

#### **William Grant:**

Reading a guide tends to be new life style on this era globalization. With studying you can get a lot of information that will give you benefit in your life. Having books everyone in this world can certainly share their idea. Books can also inspire a lot of people. A lot of authors can inspire their particular reader with their story or even their experience. Not only the storyplot that share in the guides. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of books which exist now. The authors these days always try to improve their talent in writing, they also do some analysis before they write for their book. One of them is this Technology for Teachers: Mastering New Media and Portfolio Development with Free Student CD-ROM.

#### **Athena Thornton:**

As a university student exactly feel bored for you to reading. If their teacher expected them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their interest. They just do what the educator want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that examining is not important, boring in addition to can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for yourself.

As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Technology for Teachers: Mastering New Media and Portfolio Development with Free Student CD-ROM can make you feel more interested to read.
