Elder Governance: Insights into Making the Transition Daniel Evans

When the leadership of Patterson Park Church looked for a book explaining the process of transitioning from a board-run church to an elder led form of church government, a structure they had come to believe was more in line with Scripture, they found none. God honored their efforts and two of their elders decided a book still needed to be written. Elder Governance: Insights into Making the Transition examines church government from a biblical and historical context and tells the story of Patterson Park's transition. The authors are hopeful that God will use their experience to help others considering such a transition.
