Dr. Brenda Stanton Deener Nurse Practitioner, Memphis, Tenn This is an excellent book written by Dr. Steele. Mediation and is indeed a form of law that even common citizens can come to the table with the assistance of a mediator to facilitate and evaluate both parties facts and issues. The decisions that both of them make they can live with and at the end of the day resolve to an agreement that is worthy of their signatures and is enforceable in a court of law. This book heralds a mediation perspective that pre-mediation and early assessment of the legal issues, communications issues, the financial issues, and the psychosocial issues can collaboratively be resolved into a mediation settlement agreement with the same legal basis of a court trial because it's an agreement between two or more parties who made them with sound mind and body.
