Manuel de contre-manipulation (2e Edition, revue et augmentee) (French Edition) Emilien Hulot, Lieutenant-colonel X

Fruit de près de vingt années de recherches et d'enquêtes, ce manuel pratique explique : - ce qui nous rend vulnérables à la manipulation en général, et comment y remédier ; - les profils, comportements types des manipulateurs ; - les tactiques et la rhétorique de la manipulation interpersonnelle, au travail, dans la presse, en politique, par les services secrets, les groupes politiques, les sectes ; - les stratégies de défense contre les manipulations. De nombreux exemples réels de manipulations illustrent toutes ces explications présentées de manière scientifique, et enrichies de schémas lorsqu'il est question de psychologie individuelle et des masses. Cependant, les auteurs ont pris soin d'assortir ces dernières explications de descriptions vulgarisatrices afin de rendre la lecture de ce manuel accessible à tous, puisque c'est sa vocation d'aider toutes les victimes, actuelles et potentielles de tentatives de manipulation, et aussi d'abus de confiance, d'abus de faiblesse, ainsi que, plus généralement, de la plupart des types d'escroquerie financière comme intellectuelle. Cette nouvelle édition revue et augmentée du "Manuel de contre-manipulation", par le chercheur Émilien Hulot, a été rédigée avec la collaboration du Lieutenant-colonel X, auteur de "Missions, méthodes, techniques spéciales des services secrets au 21e siècle", et spécialiste du renseignement et des services secrets. Cette évolution, fruit de cette association de compétences et de connaissances avec un grand connaisseur des techniques de manipulation, se concrétise par un important enrichissement de 115 pages, quelques corrections de tous les chapitres de l'édition précédente, et par l'ajout d'un chapitre supplémentaire. Elle inclut désormais des explications concernant la pratique de la manipulation par les services de renseignement, de sécurité et de police politique, et concernant les actions sophistiquées de propagande et de manipulation de larges groupes de personnes, que ses praticiens nomment "guerre de l'information", "influence" et "contre-influence".
