This book is a Powerful Inspiration For a new Femininity in Lead.

The Warriorress is an Archetype that enables a woman to express her spiritual aspects effectively in the world. Especially in a world, that still tends to be rather oriented to masculine standards - which likewise tend to force women to accept rather subtle or not so subtle inferiority for femininity or to activate permanently inner masculine parts for power and impact.

This is a dilemma that can prevent women from finding ultimate evolvment, fulfillment, meaning, determination and realization.

This is where the Warriorress helps.

The Manual of the Warriorress of the Light by Paolo Coelho is wonderful.

And I believe that there are specific aspects to this archetypical energy, as soon as it is activated in a woman that have to be illuminated, as they are distinctly different from the requirements of a male warrior. That is why this book exists.

dedicated to all women, who have to assert themselves with adverse trouble or find themselves in a bottleneck- or tube-situation without any role model. Women, who want to integrate their possibly harder way into a larger and reasonable context, as well as those, who feel the need to regain their sense of their dignity. It is written for women, who are constantly exploring and conquering unknown terrain, developing their own language of power and leadership in a foreign country and feel a deep passion for shaping effectively a better world - plus their companions, who want to be able to understand, support and accompany them better.

75 short chapters, beautifully illustrated
