Creative Mind Ernest Holmes

A Series of Talks on Mental and Spiritual Law Delivered at the Metaphysical Institute, Los Angeles in 1918.

Creative Mind is the first book Ernest Holmes wrote. Since 1919, it has escorted countless people out of despair and into a richer, fuller life, and has been a source of inspiration throughout the world. The strength of this book can be easily found in the simple and clear approach Holmes took in researching the wisdom of the ages from many disciplines, including psychology, spiritualism, religion, medicine, and philosophy. To meld these concepts into a practical way of living an abundant life not only resulted in this book, but set the stage for what became his classic *Science of Mind* Textbook. With this beautiful new edition, the only changes you'll find are in the presentation, not the message. In 1957, when *Creative Mind* was reprinted, Dr. Holmes reviewed the book for alterations and said that there was very little he would change, because "Truth is ageless, timeless, changeless."
