Super Omega (Alphas and Omegas) (Volume 7) Brent Meske

The end is near. Someone is demanding the death of Michael Washington. That very same someone is assassinating super people throughout the world. Their goal is nothing short of the extinction of all actives. And Michael would figure out how, except that Lincolnshire won't let him. In the final Alphas and Omegas novel, Michael must face the choice: save lives by breaking the rules, become the villain they have always feared he would become, or sit idly by while others die in his name. Lincolnshire does not take his choice lying down, and it may already be too late. This new threat may already be an unstoppable one.
