Biology: Science for Life with Physiology with mybiology (3rd Edition) Colleen Belk, Virginia Borden Maier

The **Third Edition of *Biology: Science for Life with Physiology*** continues to draw readers into biology through engaging stories that make difficult topics more accessible and understandable. Colleen Belk and Virginia Borden strive to make teaching and learning biology a better experience from both sides of the desk. The authors draw from their teaching experiences to create a book with a flowing narrative and innovative features that require readers to become more active participants in their learning. Each chapter presents the material through a story that draws from real life examples, making the reading more engaging and accessible to today's readers. These stories strive to demystify topics found in biology.

The **Third Edition** of this book features a completely re-designed art program and uses the authors' teaching experiences to create reader-centered features such as the new **Savvy Reader, Visualize This, and Stop and Stretch** to motivate and encourage reader learning. The new A Closer Look allows instructors the opportunity to expand on certain important biological topics. For instructors who do not cover topics related to physiology, an alternate edition of this book, ***Biology: Science for Life, is also available.***
