The Evil Empire Steven A. Grasse

In *The Evil Empire*, Steven A. Grasse exposes the secret history of England's global misdeeds. He asks what few have dared to ask: Having spent the better half of the millennium turning the world into their personal litter box, where do the English get off blaming everything on America?

After all, whose imperialistic shenanigans is Osama bin Laden really trying to avenge? Whose landgrabbing ways put the Palestinians and Israelis at each others' throats? Who invented machine guns, wage slavery, and concentration camps?

The closer you look at English history, the more you realize they're in no position to be pointing fingers. This outrageous indictment is sure to make blue bloods boil on both sides of the Atlantic.
