## **La révolution transhumaniste - comment la technomédecine et l'uberisation du monde vont bouleverser nos vies (French Edition) Luc FERRY**

Ne croyez surtout pas qu'il s'agisse de science-fiction : 18 avril 2015, une équipe de généticiens chinois entreprenait d'"améliorer" le génome de quatre-vingt-trois embryons humains.

Jusqu'où ira-t-on dans cette voie ? Sera-t-il possible un jour (bientôt ? déjà ?) d'"augmenter" à volonté tel ou tel trait de caractère de ses enfants, d'éradiquer dans l'embryon les maladies génétiques, voire d'enrayer la vieillesse et la mort en façonnant une nouvelle espèce d'humains 'augmentés' ? Nous n'en sommes pas (tout à fait) là, mais de nombreux centres de recherche 'transhumanistes' y travaillent partout dans le monde, avec des financements colossaux en provenance de géants du Web tel Google. Les progrès des technosciences sont d'une rapidité inimaginable, ils échappent encore à toute régulation. En parallèle, cette 'infrastructure du monde' qu'est le Web a permis l'apparition d'une économie dite "collaborative", celle que symbolisent des applications comme Uber, Airbnb ou BlaBlaCar. Selon l'idéologue Jeremy Rifkin, elles annoncent la fin du capitalisme au profit d'un monde de gratuité et de souci de l'autre. N'est-ce pas, tout à l'inverse, vers un hyperlibéralisme, vénal et dérégulateur, que nous nous dirigeons ? Certaines perspectives ouvertes par les innovations technoscientifiques sont enthousiasmantes, d'autres effrayantes. Ce livre cherche d'abord à les faire comprendre, et à réhabiliter l'idéal philosophique de la régulation, une notion désormais vitale, tant du côté de la médecine que de l'économie.
