**Evaluation of Cut-resistant Sleeves and Fiberglass Fiber Shredding at a Steel Mill** Loren Tapp, Diana Ceballos, Douglas Wiegand, Department of Health and Human Services Centers for Disease Control and Prevention, National Institute for Occupational Safety and Health

The Health Hazard Evaluation Program received a request from a steel mill in Pennsylvania. The employee and union representatives were concerned about skin irritation and possible respiratory problems from fiberglass fibers shedding from their cut-resistant sleeves. They were also concerned about safety and hygiene problems from the required use of these sleeves. The report includes the authors' findings and recommendations.
