The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners Dave Gerr

"This work is significant. It is the first to include a method of assessing structural strength in the context of the modern marine environment." --Commander M. C. Cruder, U.S. Coast Guard

Acclaimed author and naval architect Dave Gerr created this unique system of easy-to-use scantling rules and rules-of-thumb for calculating the necessary dimensions, or scantlings, of hulls, decks, and other boat parts, whether built of fiberglass, wood, wood-epoxy composite, steel, or aluminum. In addition to the rules themselves, *The Elements of Boat Strength* offers their context: an in-depth, plain-English discussion of boatbuilding materials, methods, and practices that will guide you through all aspects of boat construction.

Now you can avoid wading through dense technical engineering manuals or tackling advanced mathematics. *The Elements of Boat Strength* has all the formulas, tables, illustrations, and charts you need to judge how heavy each piece of your boat should be in order to last and be safe. With this book, an inexpensive scientific calculator, and a pad of paper, you'll be able to design and specify all the components necessary to build a sound, long-lasting, rugged vessel.

What reviewers have said about Dave Gerr's books:

Propeller Handbook

"By far the best book available on the subject."--*Sailing*

"The best layman's guide we've ever read."--*Practical Sailor*

Dave Gerr and International Marine made a complicated topic understandable and put it into a handbook that is easy to use."--*WoodenBoat*

"Without doubt the definitive reference for selecting, installing, and understanding boat propellers."--*Royal Navy Sailing Association Journal*

The Nature of Boats

"If you are not nautically obsessed before reading this book, you will most certainly be afterward."--*Sailing*

Fascinating potpourri of information about today's boats, modern and traditional."--*WoodenBoat*

From reader reviews:

Kerry Diaz:

Book is written, printed, or outlined for everything. You can recognize everything you want by a reserve. Book has a different type. To be sure that book is important issue to bring us around the world. Adjacent to that you can your reading skill was fluently. A publication The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners will make you to become smarter. You can feel more confidence if you can know about every thing. But some of you think this open or reading the book make you bored. It is not necessarily make you fun. Why they could be thought like that? Have you trying to find best book or appropriate book with you?

Jessie Nathan:

Book is to be different for every grade. Book for children till adult are different content. To be sure that book is very important usually. The book The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners had been making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The e-book The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners is not only giving you much more new information but also for being your friend when you sense bored. You can spend your current spend time to read your book. Try to make relationship with the book The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners. You never feel lose out for everything if you read some books.

Pearl Dyson:

As we know that book is important thing to add our expertise for everything. By a e-book we can know everything we would like. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This e-book The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners was filled in relation to science. Spend your extra time to add your knowledge about your science competence. Some people has distinct feel when they reading any book. If you know how big benefit from a book, you can feel enjoy to read a publication. In the modern era like right now, many ways to get book which you wanted.

Josefina Roundtree:

As a pupil exactly feel bored in order to reading. If their teacher inquired them to go to the library or to make summary for some guide, they are complained. Just very little students that has reading's internal or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that studying is not important, boring in addition to can't see colorful photos on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach

Chinese's country. So , this The Elements of Boat Strength: For Builders, Designers, and Owners: For Builders, Designers, and Owners can make you sense more interested to read.
