## **Behold The Marshal** Ronald HAMILTON

He was the greatest knight the age of chivalry produced, but political struggles that followed his death in 1219 sadly led to the loss of his epic story to all but a few scholars. Recently, as the 800th anniversary of the Magna Carta approaches, the historic document he was responsible for writing and enacting, his life has sparked renewed interest. It is a saga that reads like a Hollywood script.

He rose from the ranks of minor knights by deeds that seem to be unbelievable and yet historians tell us they did occur. In an age where a few ill chosen words could lead to a death sentence he spoke his mind and survived to be hated and loved by some of the greatest personalities the medieval age produced. He was a champion of the tournaments and set records that were never broken or even approached by other knights. His unswerving loyalty, commitment to honor, and legendary skill set him apart from the other great men of the age, who would change sides whenever the political winds shifted direction. He was a man's man and a woman's ideal. His story begs to be told and his name spoken with reverence whenever the discussion turns to great knights.

Return to the time of Eleanor of Aquitaine, Henry II, Richard the Lionhearted and John. Meet them as they were and the man they loved and hated, who survived them all, and set England on the road to democracy. Intrigue and treachery rule the day as a man of unmatched skill and honor rises from humble origins and inspires a nation destined to become the cradle of democracy. The story, chronicled by an unknown troubadour in the 13th century, is brought to life once again. Come now and Behold the Marshal!
