Alfred Tarski: Early Work in Poland-Geometry and Teaching

Alfred Tarski: Early Work in Poland-Geometry and Teaching

Alfred Tarski (1901–1983) was a renowned Polish/American mathematician, a giant of the twentieth century, who helped establish the foundations of geometry, set theory, model theory, algebraic logic and universal algebra. Throughout his career, he taught mathematics and logic at universities and sometimes in secondary schools. Many of his writings before 1939 were in Polish and remained inaccessible to most mathematicians and historians until now.

This self-contained book focuses on Tarski's early contributions to geometry and mathematics education, including the famous Banach–Tarski paradoxical decomposition of a sphere as well as high-school mathematical topics and pedagogy. These themes are significant since Tarski's later research on geometry and its foundations stemmed in part from his early employment as a high-school mathematics teacher and teacher-trainer. The book contains careful translations and much newly uncovered social background of these works written during Tarski's years in Poland.

Alfred Tarski: Early Work in Poland serves the mathematical, educational, philosophical and historical communities by publishing Tarski's early writings in a broadly accessible form, providing background from archival work in Poland and updating Tarski's bibliography.

From reader reviews:

Donald Campbell:

Book is to be different for each and every grade. Book for children right up until adult are different content. We all know that that book is very important for all of us. The book Alfred Tarski: Early Work in Poland-Geometry and Teaching was making you to know about other know-how and of course you can take more information. It doesn't matter what advantages for you. The publication Alfred Tarski: Early Work in Poland-Geometry and Teaching is not only giving you more new information but also to become your friend when you experience bored. You can spend your current spend time to read your guide. Try to make relationship while using book Alfred Tarski: Early Work in Poland-Geometry and Teaching. You never sense lose out for everything when you read some books.

Shellie Toy:

Playing with family in the park, coming to see the sea world or hanging out with good friends is thing that usually you will have done when you have spare time, then why you don't try matter that really opposite from that. One activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition info. Even you love Alfred Tarski: Early Work in Poland-Geometry and Teaching, it is possible to enjoy both. It is great combination right, you still want to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't have it, oh come on its named reading friends.

Mary Nixon:

Are you kind of occupied person, only have 10 or 15 minute in your moment to upgrading your mind proficiency or thinking skill perhaps analytical thinking? Then you have problem with the book in comparison with can satisfy your small amount of time to read it because this all time you only find publication that need more time to be learn. Alfred Tarski: Early Work in Poland-Geometry and Teaching can be your answer as it can be read by anyone who have those short extra time problems.

Mark Montague:

Many people spending their period by playing outside along with friends, fun activity with family or just watching TV the whole day. You can have new activity to invest your whole day by looking at a book. Ugh, do you think reading a book will surely hard because you have to accept the book everywhere? It ok you can have the e-book, taking everywhere you want in your Smartphone. Like Alfred Tarski: Early Work in Poland-Geometry and Teaching which is finding the e-book version. So , why not try out this book? Let's see.
