Santa Fe (Images of Modern America) Buddy Mays

Located in the foothills of the Sangre de Cristo Mountains, Santa Fe was founded in 1608 by Spanish colonists and Franciscan missionaries who were searching for gold, arable land, and Indians to convert to Christianity. In the 400 years since, this mountain community has been the hub of Spanish colonialism in the New World, the terminus of the historic Santa Fe Trail, and since 1912, the state capital of New Mexico. It is Americas third-oldest continuously inhabited, European-built community, surpassed in age only by St. Augustine, Florida, and Jamestown, Virginia. It is also the birthplace of Santa Fe style, a term used to describe the unique amalgamation of Indian, Spanish, and Anglo cultures that has strongly influenced the world of architecture and fashion since the 1960s and made the city one of Americas most popular and recognizable tourist destinations.
